Every Tiara Yacht, whatever the length, is unique &ndash and each is every inch a Tiara. From bow to stern, top to

bottom, inside and out, each is the end result of a combination of experience and design/build philosophy. They are rugged, exquisite yachts built with the extreme care and consistent quality that can only be generated by a company that is family-owned and operated.

>Although other boat builders around the world keep trying to make boats like ours, we've never tried to make boats like theirs. Tiara Yachts makes boats that speak to all the senses &ndash sight, sound, touch, smell. And particularly, to the owner's common sense.
