Beam:	20.67 feet	Engine Model:	C32 Acerts
Draft:		Boat Location:	FL, United States
Engines:	CAT	Engine Model:	C32 Acerts

AVAILABLE FOR IMMEDIATE DELIVERY

>Coming on the heels of the recent launch of the 95 Motor Yacht, the 85 Motor Yacht benefits from many of the engineering and design features of her big sister.

On the flybridge, the emphasis is placed on creating spacious gathering areas. A large seating area to port features a large dining area and then rounds into an intimate dinette forward. A raised sunpad aft has ample storage beneath and there is space to accommodate an optional whirlpool tub. An L-shaped bar to starboard is centrally located and convenient to both the seating and sunning areas. Forward, the centerline helm provides optimal visibility underway while the starboard companion seating is ideal for assisting with navigation. A large electro-hydraulic davit allows for tender storage on the aft portion of the flybridge and spans the swim platform to carry additional water toys below. Access to the main deck is via the spiral staircase to the salon or the integrated stairwell to the aft deck. Entertaining on the aft deck is comfortable thanks to the large U-shaped settee shaded by the flybridge overhang. An optional bar is conveniently located for access both on the aft deck and the salon. Access to the large bathing platform is made easy with the dual transom stairways. The main salon is a study in comfortable living. Residential style seating to port is arranged for casual conversation and relaxing while enjoying the seaside views that lie just beyond the large side windows. The adjacent entertainment center is equipped with the latest in audio/visual equipment and doubles as a bar with storage for glassware and bottles. The dining room is open to the main salon and features ample seating for eight guests. Storage for china, glassware, and silverware is cleverly concealed in the surrounding cherry cabinetry. The day head is well-located so as to be accessible from both the pilothouse and the main salon and dining room. Forward, the open galley plan is both functional and social with a large dinette under the forward windshield. Dual side deck doors provide quick access to the outdoors where guests can retreat to the foredeck seating area to take in the sunset over private conversation.

Several different layout options are available for the lower accommodation deck. The standard layout features twin guest cabins with side-by-side single berths. Alternatively, the starboard stateroom can be designed as a second VIP with a walkaround berth. An optional office layout with pullman berth for the port stateroom is ideal for those who like to stay in touch with the office while afloat. The master suite is located amidships to take advantage of the full beam and is bathed in natural light from the vertical portlights to port and starboard. This exquisite retreat features a vanity/desk area and an in-suite dinette ideal for light snacks and relaxing over a cup of coffee. The large walk-in closet boasts ample hanging space, while the master bathroom can be equipped with either a large stall shower or a whirlpool bathtub. Forward, the VIP stateroom includes a walk-in closet, dressing table, and en suite bathroom. The aft location of the crew quarters provides both space and privacy and features two staterooms and a fully-equipped kitchenette.

Exquisite in every detail, the 85 Motor Yacht combines luxury, performance, and livability to suit a variety of cruising needs.

Additional Specs, Equipment and Information:

Builder/Designer

Builder: Princess Yachts International

Dimensions

LOA: 85.08 feet

Beam: 20.67 feet

Engines

Engine Brand: CAT

Engine Model: C32 Acerts

Engines

Total Power: 1925

Standard Equipment
